

Boost event engagement before, during and after your event.

Email Marketing

RegOnline's Email Marketing Tools

RegOnline's email marketing tools will not only help you get more registrations, but boost engagement with your attendees before, during and after your event.

RegOnline's email tools work directly with your registration dashboard to help you drive more registrations earlier and to help you communicate more effectively with your attendees once they have registered. Our email tool set makes it really easy to create and deploy professional looking email campaigns, with the added benefit of email reporting. You can track open and click-thru rates and create other reports to help you understand who has registered and who has not. From there, you can build out trigger emails that go out automatically to make it really simple to stay in touch with your registrants.
