RegOnline Surveys

With the help of RegOnline surveys, you can make your event better by getting suggestions directly from your attendees. Surveys help you engage with your audience on another level and open up opportunities for you to get helpful feedback before, during and after your event.

Surveys are powerful tools to help gauge what your attendees are thinking. And creating a survey on RegOnline is as easy as creating an event. Our survey tools allow you to build fully customized forms with a design that matches your event website and registration form, unlimited questions, and conditional logic formatting capabilities. You can boost survey responses by setting your survey controls to "anonymous". Attendees are often more willing to share their feedback if they don't have their name attached to the survey.
