SESSION 2A – AGING, HEALTH, AND QUALITY OF LIFE
Alaska-based researchers present recent research findings on topics related to aging among Alaska Native people.

- **Moderator** - Ingrid Stevens, MPH
- Maria Crouch, MS, PhD-c - “Alaska Native Quality of Life: The GLEAN Research Study”
- Lisa Dirks, MLIS, MAdm - “Culturally-Tailoring a Communication Intervention for Advance Care Planning (ACP) with Alaska Native and American Indian People”
- Brian Trimble, MD, MPH - “The Epidemiology of Parkinsonism in Alaska Native People 2000 to 2013”
- Benjamin Fife, BS, WWAMI Med. Student - “Spirituality and health outcomes for Alaska Native caregivers of those with Alzheimer’s disease and related disorders”

SESSION 2B – RESEARCH RELATED TO DIET AND NUTRITION
Researchers present recent or ongoing diet or nutrition studies conducted with Alaska Native people.

- **Moderator** - Flora Sapp, RN
- Stephen O’Keefe, MD - “Pilot study to analyze the colonic microbiome and metabolome that may increase risk for colon cancer in Alaska Native people”
- Rosalyn Singleton, MD, MPH – “The relationship between declining traditional marine diet in childbearing aged women and vitamin D deficiency and rickets in Alaska Native infants”, and
- Rosalyn Singleton, MD, MPH – “Association between Vitamin D deficiency in Prenatal Women and Early Childhood Cavities in their Infants”

SESSION 2C – UPDATES ON ALASKA NATIVE CANCER EPIDEMIOLOGY
Alaska-based researchers provide new data on cancers among Alaska Native people

- **Moderator** - Shannon Hagitt, MSW
- Sarah Nash, PhD - “Potentially preventable cancers among Alaska Native people”, and
- Sarah Nash, PhD - “Cancer survival among Alaska Native people”
- Matthew Olson, MD, PhD - “Nasopharyngeal Cancer in Alaska Native People: A Cancer Health Disparity”

SESSION 2D - HUMAN SUBJECTS PROTECTION TRAINING FOR COMMUNITY HEALTH WORKERS (PART 2)
This is part 2 of a 2-hour workshop presented by Drs. Usha Menon and Jennifer Kue of the University of Arizona who will detail the development and testing of a human subjects’ protection training program for research staff with limited to no research experience. The primary objective was to provide a culturally salient human subjects protection training for community research personnel who may view traditional human subjects’ protection training to be lacking in cultural relevance, have high literacy levels, and be challenging to access.

SESSION 2E – DATA TOOLS FOR AMERICAN INDIAN/ALASKA NATIVE POPULATIONS WORKSHOP (PART 2)
Looking for data to support a project or develop a research proposal? Come to this 2-hour workshop and learn from Heidi Crawford, a Data Dissemination Specialist with the Data Dissemination Branch of the Customer Liaison & Marketing Service Office at the U.S. Census Bureau in Washington, D.C. Her presentation is geared toward providing researchers the tools necessary to explore the data available through the U.S. Census Bureau.
